

Society for Risk Analysis Nordic Chapter Annual Meeting Gothenburg 14-15 November, 2016: Program				
MONDAY 14 November				
930	Welcome!			
9 35-10 45	<b>PLENARIES</b> James H. Lambert: “Must risk analysts mean what they say: Advances in the disciplines of resilience and risk” Ortwin Renn: “From conventional to systemic risks: New challenges in risk assessment and governance” Chairs:			
10 45 -11 15	COFFE - TEA			
11 15-12 45 (90 min)	Parallel Track 1	Parallel Track 2	Parallel Track 3	Parallel Track 4
	<i>Risk framing, communication, and discourse – Part I</i> Chair:  Towards genetic risk communication: conceptual issues, Frederic Boudier  Inconsistent definitions of “risk” by Swedish government agencies, Max Boholm  A scenario exercise on zoonosis collaboration, risk assessment and communication for Swedish authorities in the health risk sector (ZORK); Karin Nyberg et al  On the rhetoric of obesity and overweight –a comparative analysis of risk communication	<i>Organisational frameworks for risk management: administrative tools, control and information systems – Part I</i> Chair:  Safety and the use of management control systems and Key Performance Indicators at a Swedish nuclear power plant, Christina Mauléon & Maria Spante  Mapping "risks" in register studies and the (non-) ethical considerations. The importance of ethical information in official reports, Charlotta Thodelius & Jörgen Lundälv  The rise and fall of injury prevention programs in Sweden,	<i>Risk perception</i> Chair:  Is ignorance bliss? - The effect of knowledge and ignorance assessments on perceived risk, Carl-Martin Allwood  Environmental and technological risk perception in Nordic-Baltic countries in European context, Aistė Balžekienė & Audronė Telešienė  User Centered Design of the Visualization of Risk of Dynamic Positioning Operations, Sandra Hogenboom  Stigmatization of healthcare staff, Johan Giesecke	<i>Climate change, natural hazards, resilience and governance</i> Chair:  Responsibility distribution in climate change risks, Åsa Knaggegård et al  Climate change and risk management in Swedish municipalities: Risk perception of decision makers and experts and implications on resilience, Andrea Morf & Madeleine Prutzer  Resilience at risk in rapidly changing cities, Marie Thynell  Systematic knowledge sharing in public private partnerships in Sweden - Lesson from a Swedish natural hazard context, Monika

	in Sweden and Malaysia, Jens Allwood et al	Hans Ekbrand et al  When digital support systems in school risk to fail: on the investigation of intended and unintended consequences on individual, organizational and societal levels, Maria Spante & Christina Mauléon		Rydstedt Nyman
12 45 -14 00	LUNCH			
14 00-14 40	PLENARY Nick Pidgeon “The European Perceptions of Climate Change (EPCC) project” Chair:			
	Parallel Track 1	Parallel Track 2	Parallel Track 3	Parallel Track 4
14 45-16 15 (90 min)	<p><i>Risk framing, communication, and interpretation – Part II</i> Chair:</p> <p>Conflicting futures? Risk in petroleum exploration and nature conservation narratives in the Lofoten Islands, Norway, Marianne Karlsson</p> <p>Rearticulating intersecting structures of risk in everyday life of young migrants, Anna Olofsson et al</p> <p>Communicating the Ebola epidemic: A comparative study of Swedish news media and social media, Pavel Rodin &amp; Marina Ghersetti</p>	<p><i>Organisational frameworks for risk management: administrative tools, control and information systems – Part II</i> Chair:</p> <p>Project risk management: potential in the field and the NUSAP scheme, Miroslava Tegeltija &amp; Igor Kozine</p> <p>Lethal school violence: linking conflict, relation and intended victims, Charlotta Thodelius &amp; Thodelius &amp; Hans-Olof Sandén</p>	<p><i>Risk and decision making</i> Chair:</p> <p>A society of risk analysis in place of sound decision making?, Jonatan Gehandler</p> <p>Decision-making on uncertainty and ambiguity grounds or how to choose between plague and cholera - a retro perspective study of four threat situations at Swedish Universities, Per Gustafson &amp; Fredrik Nilsson</p> <p>The Precautionary Principle as a heuristic patch, Kim Kaivanto</p> <p>Forget about the carrots, look for the sticks: an alternative methodological approach to</p>	<p><i>Water management, risk assessment, management &amp; governance</i> Chair:</p> <p>Risks related to cooperation and participation in water organisations and water management, Madeleine Prutzer &amp; Linda Soneryd</p> <p>Finding the balance between use and protection of water in a river catchment using the Relative Risk Model approach, Indrani Govender</p> <p>Method development for decision-making processes aiming to optimize the selection and design of flood reduction measures within Gothenburg’s hydro-model, Johan Nimmermark &amp; Lars Rosén</p>

	Environmental risk (non)communication? Media discourses on environmental compensation in cases of urban infrastructure projects, Audronė Telešienė et al		exploring risk, Chris Bennet	Evaluation and analysis of flood risk perceptions, Maria Giovanna Pagnotta & Chiara Biscarini
16 15-16 45	COFFE/TEA			
16 45-18 15 (90 min)	<p><i>Nanotechnology: Symposium</i> Chair:</p> <p>Risk scoring and ranking of nanomaterials - a way forward?, Rickard Arvidsson et al</p> <p>Risk and responsibility in nanotechnological innovation as seen by innovation advisors in Swedish universities, Monica Lind de Montoya</p> <p>Perception of risk among scientists working with graphene, Mikael Johansson</p> <p>Travelling risks. Nanotechnology risks in India and South Africa, Koen Beumer</p>	<p><i>Risk policy: accountability, acceptability, the role of risk professionals</i> Chair:</p> <p>Damned if you do, damned if you don't: rigidity and flexibility in safety policy, Johan Bergström</p> <p>Explosive remnants: A risk governance challenge, Fredrik Johnsson</p> <p>Evidence based and risk informed policy making in Europe---what are the possible consequences of Brexit?, Ragnar Löfstedt</p> <p>Some reflections on how it is to be a young risk researcher, Torbjörn Bjerga</p>	<p><i>Risk analysis: approaches, methods &amp; concepts – Part I</i> Chair:</p> <p>An investigation of evaluations of risk analysis methods, Björn Nevhage &amp; Misse Wester</p> <p>Experiences in oil accident risk analysis, Sakari Kuikka</p> <p>Statistical analysis of extreme sea water levels at the Falsterbo Peninsula, South Sweden, Caroline Fredriksson</p> <p>Ruling out risks based on implicit value judgments: lessons from non-inferiority trials, Sten Anttila</p>	<p><i>Wildlife natural resource management: governance, challenges and concepts</i> Chair:</p> <p>Political leadership and accountability in the governance of large carnivores, Katarina Hansson mfl</p> <p>Collaborative practice and interaction: Generative moments for trust, credibility and commitment in Swedish large carnivore management?, Madeleine Prutzer et al</p> <p>The dilemmas of public managers in moving collaboration forward: the case of Wildlife Management Delegations in Sweden, Serena Cinque</p> <p>Complexity thinking and ecostructure policy: Understanding how bioeconomy becomes, Juha Hiedanpää</p>

18 30-19 30	SRA NORDIC CHAPTER BUSINESS MEETING			
19 30 -	DINNER			
<b>THUESDAY 15 November</b>				
	<i>Parallel Track 1</i>	<i>Parallel Track 2</i>	<i>Parallel Track 3</i>	<i>Parallel Track 4</i>
9 00-10 30 (90 min)	<p><i>Drinking water risk management: Symposium</i> Chair:</p> <p>Risk-based decision analysis of water safety measures from source to tap, Lars Rosén et al</p> <p>How local governments solve the dilemma of transboundary risks: the case of Drinking water in the Göta Älv water system, Anna Bendz</p> <p>Probabilistic modeling of water supply safety measures in drinking water systems in arid areas, Andreas Lindhe</p> <p>Experts' understandings of drinking water risk management in a climate change scenario, Åsa Boholm &amp; Madeleine Prutzer</p>	<p><i>Local level: crises, risk and emergency management and framing</i> Chair:</p> <p>Integration of risk analysis and continuity management : using action research in a municipal context, Henrik Hassel</p> <p>RVA guidelines and implementation in municipalities , Mette Leonhardsen et al</p> <p>Local social services in times of disaster: Comparison of the Nordic countries, Ingibjorg Lilja Omarsdottir</p> <p>Framing crisis, Erna Danielsson</p>	<p><i>Risk analysis: approaches, methods &amp; concepts – Part II</i> Chair:</p> <p>Towards application of risk management technique in building performance design, Krystyna Pietrzyk</p> <p>Operational implications of accepting and denying whether a true value of risk exists, Igor Kozine</p> <p>The Society for Risk Analysis's new risk glossary, Ullrika Sahlin</p>	<p><i>Finance, insurance and economic uncertainty</i> Chair:</p> <p>Risk appetite frameworks and professional principles - accounting quality and audit quality in the light of financial stability, Asgeir B. Torfason</p> <p>The role of financial expertise in investors' risk taking and ability to forecast risk on financial assets, Magnus Jansson et al</p> <p>Driverless vehicles: Changing the risk quotient for insurance companies, Partha Panda</p> <p>Risks and social capital for adaptive agency in times of economic crises: Evidence from plant closures in Sweden, Lucinda David</p>
10 30-11 00	COFFE/TEA			
11 00-12 45	<b>PLENARIES</b> Barbara Czerniawska “Operational risk, translation, and glocalization” Jaana Kallio Husu “Has risk assessment improved food safety in Europe?” Sven-Ove Hansson ”Ethical risk analysis” Chair:			

12 45 -	LUNCH (END OF CONFERENCE)
